Letter from David

Dear Friends, The emails this month are so comprehensive that I shall let them speak for themselves. The work grows and is richly blessed.

Noteworthy is the work among young people on campuses, the children's work and the Bible College students. Even ministry to the Police and Army where pastor Renato is now Chaplain to the Police Intelligence Unit. Lydia, who had a cleft lip operation courtesy of the "Smile Train" has lost her husband and is left poverty stricken with 6 children.

Churches meet to pray every morning for 1½ hours for a good result in the forthcoming election; Ariel's church & Pat's church both pray every morning for the nation. "Dawn Watch" they call it!

Please keep praying for the work and workers. Any gifts may be sent to me as below and will be forwarded without deduction.

Many thanks for your generous support, without which the work would be difficult to maintain

Letter from Pastor Renato and Sister Nelia Christian Greetings!

Once again I praise the Lord of what He has doing in the ministry here in Dipolog, Philippines and other parts of the province here. This month there are some another things that God has put in our hearts. The ministry here is doing very well in the mother church and daughter churches and outreaches.

The feeding program is doing fine and blessed by God because the children's that are very attentive in the programs are now serving the Lord, it is so good to see them in the church some of them are tambourine dancers, some are worship leaders, and some become a preacher of God's word in their school.

You ask about the bible school we just continue the training of the new students we have eight new students as of now brother David. About the police force ministry still going on and i am now ordained as CHAPLAIN and i have now access to share the word of God not only to our police force but even to our military men in uniform i have an access also to share the word of God to them.

The bible school students are still living in the house, some of them will be graduated in senior high school next month and they still schooling in bible school every night and praise God that they are a big help in the ministry by

Invited to speak to the TAOC-IG means to the intelligence group of police

doing children's ministry and visiting to the outreaches. Our church is the one who help all their needs, food, miscellaneous, payments in the school and other needs, Also the church is helping some poor elementary students... every Sunday we

give them funds for their whole week allowance and if they have no money to buy their project, our church will provide their needs, in the school.

Also this month we meet a family who are very poor as we visit to their house they are just living in a coconut storage of their employer, They have

no house and they have a daughter who is a rape victim and what we knew is that woman is not a normal person, she does not know who made it to

her. On the photos i sent to you can see the house where they are living. And what's on our heart with my husband we will be going to build a house for them. It is a new project that we are going to do.

Another thing that we did in the ministry here... we also help a person who suffered a stomach pain for 12 years in fact that person his name is Jeffrey Lagora, the son of Pastor Lagora in Cayasan. they parents could not able to pay the bills in the hospital so that we did we bring him in the hospital for his checkup. And praise God there is no problem with his abdomen but by Month of may we will be back in the hospital for his laboratory. We bought all the medicines and vitamins that the doctor give. Again, thank you so much for sending your monthly financial support because we can able to help people who need help also. Not just in the ministry by doing feeding programs, going outreaches but also helping the needy person. Again, thank you so much everyone for your prayers and your financial support to make all the impossible to become possible. Your prayers and supports are highly appreciated and we always mention you all in our daily prayers. In my next emails. Pictures will be followed. Thank you so much and God bless you all.

In Christ,
